Introduction

WHO WE ARE...

YRS AGRO INDUSTRIES is a service oriented company established two years ago with a vision to create a first class integrated services structure and other business solutions within the entire Nation. While various services are offered our core business is the commercial brokerage that puts the best management know-how, state-of-the-art technology and efficient logistic follow-up to work for you and your company needs.

We are well known wholesalers, distributors and marketers for premium quality, branded food products such as fruits, vegetables, eggs and other foodstuff products in the Middle East and Asian Countries.

The company imports / procures quality fruits, vegetables, foodstuff from all over the world, all the suppliers of ours are certified producers and growers who meet the highest standards in their respective countries. The company holds a large number of consistent customers all over the GCC and Asian Countries with the strong commitment towards providing the quality to its valuable customers with high quality fruits, vegetables and other food products. Our experience in handling bulk orders and meeting targets as per the given schedules help us in efficiently meeting consumer needs and providing them the quality at a very competitive price.

Quality Assurance

We observe high quality standards during the manufacturing and packing of our products. We Have an arrangement to make direct procurement of raw materials from the farms and Cooperatives and are able to offer both processed and unprocessed food products that are Commensurate with international standards. Our superior infrastructure coupled with expert minds in the field ensure the highest standards of manufacture and packaging and our products reach their destinations without losing any of their flavor, texture, taste or nutritional quality. In short, our quality standards match the important physical, chemical and microbiological parameters consistent with international standards.

We strive to maintain the highest standard of quality in keeping with the highly quality conscious food export market of today. A team of quality controllers oversee every stage from the procurement of raw materials to packaging and storing of the packed products. Exceptionally high standards of hygiene and quality are maintained during every step of the processing and experts in the field inspect all raw materials at the source to check for adulteration or poor quality.

Our industry experts also conduct regular studies on market requirements and modern trends in food processing and this enables us to make timely modification in product ingredients and technology. Their in-depth knowledge of our products coupled with stringent quality control measures have made it possible for us to deliver world-class products to our customers.

What “We Deal In”

Vegetables

It is said that we feast with our eyes, before we taste the bounty which lies before us. Certainly how else should one describe the colorful array and radiance of the fresh vegetables offers your customers. We take pride in discovering new flavors and emerging varieties from around the world.

Vegetables are the staple of our life, no matter which cuisine we prefer. They are nutritionally dense and provide many a health and dietary benefit. But, it is not for well-being alone though that we seek out these wonderful buds, tubers, leaves and shoots. We are seduced by the treasury of fragrance, flavor and appearance of these essentials for life, which Fresh Fruits supplies at premium quality.

Leveraging India's comparative advantage in agriculture, YRS Agro Commodities aims to create and deliver value across the agricultural exports supply chain. As one of Asia's leading post-harvest Agri-solution providers we are uniquely positioned to understand the stringent demands of international Agri-buyers and match it with our on-ground understanding for strategic sourcing.

We leverage our enduring farmer partnerships in creating purchase efficiency to source superior quality agri-produce directly from the producer and offer premium quality agri-exports at competitive prices. Our export services include procurement & supply of high quality food ingredients from India. With our owned warehouses and private-mandis, we aim to provide onestop services to global customers, with best quality, assured quantity and transparency of international standards.

Fruits

Fruit is such a fundamental word that underpins not only who we are as people, but echoes through all our languages and cultures. We talk of the 'fruits of success', or the 'fruit of our labors' or dreams coming 'into fruition'. Fruit is the essential sweetness that makes our lives worth living. It would be a hard world, indeed, to imagine without it.

Fresh Fruits covers the world with our selection and depth of range in our premium quality fruit products, whether they come from the farthest, most distant places—or just down the road.

Our vision is to supply every one of our customers with the freshest, highest quality fruit and vegetables. In a country of expatriates, we aim to source products from every country, so everyone has a taste of home—and the exotic flavours they may have never tried—all with our signature freshness.

Add to this our desire to supply you and your customers delicious foods at a price that is as terrific as the taste.

We achieve our quality through a rigorous selection of farms and partner suppliers who share our vision of affordable quality, as well as our insistence on operating a short supply chain; a dedicated and ultra-efficient logistics system, and a brand new, state-of-the-art storage facility that underscores our commitment to fast, fresh delivery.

Processed Foods

YRS AGRO INDUSTRIES is A manufacture & exporter of best quality processed food where the products are being grown and cultivated. The company is having good associations with some worldwide companies.

Over the last 4 years work with local market now YRS AGRO INDUSTRIES forayed into the Export Market segment, a move that reaped immense benefits. Within the rapidly expanding Agro products category, YRS AGRO INDUSTRIES operates a vertical consisting of a selected product cells in Agro commodity.

Grains

India is one of the most important players in the global market today. Being one of the major agricultural exporters in the world, grain and cereal export from India has been growing rapidly. YRS AGRO INDUSTRIES is one of the most reliable grains exporters from India. We work on the export of grains and cereal, fruits, vegetables, pulses, spices, and such other food products from India.

Known to be the best grains and cereal exporter in India, we at YRS AGRO INDUSTRIES make sure that premium quality grains and cereal in India are exported abroad. When we work on the export of Indian grains, we make sure that all the health and safety regulations are followed. With extensive experience in the food export industry and export of Indian grains, we make sure that we can get the best buyers for grains exporter from India. If you are looking for grain and cereal import from India, YRS AGRO INDUSTRIES is the best choice for you!

Rice

The name Basmati originated from the Sanskrit word “Bas”, which means smell. The rice has special features, which makes it naturally long grain, fragrant and delicious in taste. The legend says that that this rice was meant to be consumed by the Maharajas (Kings), Maharanis (Queens), Princess and royal families. This particular strain of rice, also called the king of rice is held in the highest regard world over. Among all other varieties of rice, none have the distinctive long grains or the subtle aroma for which this grain is considered so special. It is grown in the most fertile valleys and plains of India, which results in such quality.

YRS AGRO INDUSTRIES is well-known rice manufacture, trader, exporter and importer in India. We are a prominent exporter, importer and supplier of a wide range of supreme quality Indian traditional basmati rice in all over the India. We follow a step-by-step dynamic approach and keep a vigilant eye on each and every process of the organization. Our team of employees and farmers producing rice play an important role in our success. We always thought of calling our-self successful only if our brand outlasts forever to serve the nation and the world. Entrepreneurship being the bread and butter of our family since decades The Company has inherited the legacy to recognize people who could help us execute our vision. To realize out potential and to leverage it into a flourishing brand we began with YRS AGRO INDUSTRIES.

Maize

In India, yellow maize is emerging as third most important crop after rice and wheat. Maize has its significance as a source of a large number of industrial products besides its uses as human food and animal feed. Diversified uses of maize for maize corn, starch industry, corn oil production, baby corns, popcorn, etc.

We are one of the leading traders, exporters and suppliers of high quality Raw Maize that are procured from the reliable vendors of the market. In order to cater to the diverse expectations of our clients, we offer these products in various packaging options. These are offered in optimum packaging material which helps in retaining their nutritional properties and keeps hygiene for a long time. The offered range is tested.

This is a food grain crop grown mainly in Asia and some parts of American Continents. Maize plant stems looks like a Bamboo plant. The minimum temperature requirement for cultivation of this plant is 10 degrees C. Maize Kernels are useful in several food preparations such as maize tamales, salads, ice creams and cakes. Maize seeds and kernels are used in production of oil.

We can supply maize in both rabi and kharif season with competitive rates in the market.

Soybeans

Soya nuggets or Soya Chunks or "Bari" is commonly known as the vegetarian meat. It is prepared from de-fatted Soya flour by the process of extrusion cooking. During the process, the protein in the flour undergoes structural changes and forms a fiber like network. The texturised product on soaking in water, absorbs the same and develops a meat like and chewy characteristics and therefore nuggets are called as vegetarian. Soybeans are one of the most prevalently grown and used oilseeds. Uses range from human foods to animal foods, to industrial products, to ingredients, and to precursor materials. A key step to utilizing soybeans is to separate oil from protein and fiber. This has historically been accomplished using either solvent extraction or expeller pressing—both result in oil and protein-rich meals.

We are supported by the team of crew of deft professionals, highly indulged in presenting raw Soybean to our customers. These provided products are stringently tested and cultivated in hygienic condition to ensure their safety and purity. Apart from this, we provide these products at very feasible prices at very feasible prices.

Spices

India is one of the leading exporters in spices in the world. As of 2013, Food and Agriculture Organization of the United Nations, India is the first largest producer of Chilli Pepper and Ginger and second largest producer of Black Pepper. India is the world's largest producer, consumer and exporter of spices. Major importers of Indian spices are USA, China, Vietnam, UAE, Indonesia, Malaysia, UK, Sri Lanka, Saudi Arabia, and Germany. India produces about 75 of the 109 spice varieties and accounts for fifty percent of the world trading in spices.

We, at YRS AGRO INDUSTRIES, believe that Indian culture and our unique spices in India should reach each corner of the world. We are one of the leading export companies for the export of Indian spices. We, being whole spice exporters, export numerous spices including pepper, cardamom, chilli, ginger, turmeric, coriander, cumin, celery, fennel, fenugreek, ajwain, dill seed, garlic, tamarind, clove, nutmeg, star anise, cinnamon, asafoetida and many more.

YRS AGRO INDUSTRIES has a strong experience in the food industry. Being one of the renowned exporters of Indian Masala we have connections across the globe. Through us, you can export Indian spices across any continent. Our process is perfectly transparent and reliable. We have trained executives who analyze the market so that we can give you the latest information available.

Animal Feeds

Animal Feed is traded all around the world. The data provided on the export analysis shows that there are almost 117 countries and territories, which actively import Animal Feed from India.

From the day we have entered in this industry, we have come up with a wide collection of Animal Feed. In conformity with the food market set standards and norms, these presented products are highly cultivated and processed. Apart from this, we provide these in between the assured span of time at reasonable costs.
